Slowest Delivery Categories

Order Value vs Review Score

KEY BUSINESS INSIGHTS

1. Health & Beauty is the top revenue category — recommend increasing inventory and ad spend here.
2. 73% of customers pay via credit card — introduce EMI offers to increase average order value.
3. Average delivery time is 12.5 days — reducing to under 7 days could significantly improve review scores.
4. Monday has the highest order volume — run weekend flash sales to boost low Saturday/Sunday numbers.
5. 1-star reviews are linked to delayed deliveries — fast shipping = better ratings = more repeat customers.
